ISO 19011 Audit Transition
e-Learning

About course

A flexible, self-paced learning experience designed to help participants understand the updates to ISO 19011 and how to apply them in planning, conducting, and improving management system audits.

What's included

- Over 4 Expert-led video lessons
- 8 CPE Credits upon completion
- 136 Interactive learning slides
- 8 Knowledge-testing quizzes
- 3-months of platform access
- Access via laptop or mobile devices
- Instant access and account creation

Learning Experience

- Understand the purpose, structure, and relevance of ISO 19011:2026 in the context of management system audits.
- Recognize the key updates introduced in the revised standard and explain their impact on audit activities.
- Apply updated audit guidance when preparing for audits, supporting audit activities, managing documented information, and addressing audit findings.

TRECCERT

Grow your credentials

If you wish to validate your knowledge, an optional ISO 19011 Audit Transition certification is available. This certification demonstrates your understanding of the transition to ISO 19011:2026 and applying the updated guidance in management system audits
